INTRODUCTORY

In presenting this, **THE CITY DIRECTORY**, we do so with the assurance that it is not a new venture for the publishers in this line of work. We have been engaged in directory publishing for a number of years and in no line of work is experience more necessary than in directory business, and the knowledge gained by the publishers has been used to an excellent advantage in this publication.

The work of gathering and compiling the data for a City Directory is more intricate than that of almost any other line. Few men are adapted to it at all, and those who are, naturally go to concerns who are largely engaged in the business. It is necessary to maintain a large force of trained men and to keep them permanently employed, as the work cannot be carried on successfully by new and inexperienced people.

The City Directory is one of the most necessary, important and generally used publications. Every resident is represented and interested; it is a matter of importance that every individual and every institution be properly recorded, for the Directory is used by nearly every inhabitant of the city and by those who visit the city.

A complete canvass has been made of the city and the outlying suburbs by men skilled in the work, and every effort has been made to produce a work which will be in keeping with the advancement of this progressive city.

The Directory is an unexcelled medium for use in the purchase of goods, and every business man should avail himself of the opportunity which it offers for the full and proper classification of his business, and for keeping his card where it may be found at all times by those who seek such information. It contains the names of all adult citizens, with their occupations, places of business and dwellings; also a complete street directory, conveniently arranged in numerical order; rural routes, miscellaneous information, embracing city and county officers, hospitals, banks, cemeteries, churches, clubs, colleges and schools, postoffice, railroads, societies, and a street and avenue guide.

A classified Business Directory will be found in one section of the work, and will be appreciated as a useful purchaser's guide by the residents as well as by others who look to this market for supplies.

Keep your Directory in a convenient place for frequent reference and invite your customers to use it. If they consult it, you will confer a favor on them, as well as extend your acquaintance and advertise your business.

In conclusion we desire to heartily thank our patrons for their generous support. A glance at the advertisements in this work will show that the manufacturers, merchants, etc., have been very liberal with their patronage.

We will continue to issue **THE CITY DIRECTORY** biennially until the city shall have attained such a growth that it will be necessary to issue a new directory each year.

THE HISTORY OF THE UNITED STATES

CHAPTER I
THE DISCOVERY OF AMERICA
The first discovery of America was made by Christopher Columbus in 1492. He was an Italian explorer who sailed across the Atlantic Ocean in search of a new route to the East Indies. On October 12, 1492, he landed on the island of San Salvador in the Bahamas. This was the first of many voyages that Columbus made to the Americas. His discovery opened up a new world of exploration and trade for Europe.

CHAPTER II
THE EARLY SETTLERS
The first European settlers in America were the Spanish conquistadors. They came to the Americas in search of wealth and power. They established colonies and built empires. The Spanish conquistadors were followed by other European powers, including the French, Dutch, and English. Each power established its own colonies and fought wars to expand its territory.

CHAPTER III
THE AMERICAN REVOLUTION
The American Revolution was a war fought between the thirteen original colonies and Great Britain. The colonies wanted to be free from British rule and to establish their own government. The war began in 1775 and ended in 1781. The colonies won the war and became the United States of America.

CHAPTER IV
THE GROWTH OF THE UNITED STATES
The United States grew from a small colony to a large nation. It expanded its territory westward and acquired new states. The population grew and the economy developed. The United States became a world power and played a major role in the world.

CHAPTER V
THE AMERICAN CIVIL WAR
The American Civil War was a war fought between the Northern states and the Southern states. The Southern states wanted to remain a slave society, while the Northern states wanted to abolish slavery. The war began in 1861 and ended in 1865. The Northern states won the war and slavery was abolished.

CHAPTER VI
THE RECONSTRUCTION PERIOD
The Reconstruction Period was a time of rebuilding the Southern states after the Civil War. The federal government tried to help the Southern states rebuild their economy and society. However, the Southern states resisted and fought to maintain their old ways. The Reconstruction Period ended in 1877.

CHAPTER VII
THE GROWTH OF THE UNITED STATES
The United States continued to grow and expand its territory. It acquired new states and territories. The population grew and the economy developed. The United States became a world power and played a major role in the world.

CHAPTER VIII

Hard to Decide

What to wear on your Feet this Season?

Come to our store and we'll assist you.

Hardly think there's a man, or for that matter, a woman either, that cannot find here just the thing that's wanted in Footwear.

Our \$4 Men's shoe and our \$3 Woman's shoe appear to have the most friends.

Cheaper shoes or more expensive, if you prefer.

~~Oxfords~~, Ties, Pumps, Canvas Shoes, etc., galore.

What's the use in quoting prices, unless you see the shoes?

THE CARTERCAR WITH THE GEARLESS TRANSMISSION

IS MAKING MORE GEARLESS TRANSMISSION ENTHUSIASTS EVERY SEASON, EVERY MONTH, EVERY DAY.

The great army of Cartercar owners are enthusiastic gearless transmission boosters.

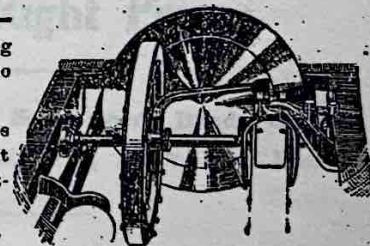

Every Cartercar has all the latest equipment, backed by its simple and efficient construction and the friction transmission. The Cartercar is continually making new friends.

This is due to its many advantages; the infinite number of speeds controlled by a simple movement of the hand.

The pulling power produced by this "wheel and disc" type of transmission is wonderful.

No worrying over the grinding and stripping of gears, and no clutch to take hold with a jerk.

The friction transmission always picks up with a smooth and swift increase of speed that is most satisfying.

This is the Famous Gearless Transmission

See the Cartercar yourself. Write for name of nearest dealer and "The Transmission Tells the Story."
